and membership benefits, and/or to join ISHMap, please visit our website.

Web Site: <http://ishm.elte.hu>

Email: ishm.contact@gmail.com

The Society was founded in London in 2011 with a remit to promote the academic standing of the subject and to represent the international community of researchers. ISHMap is the first and only **international academic society** whose objectives are **to advance the study of the history of maps in all societies and over all periods of time** by promoting the education of the general public in the subject, communication between members and others interested in the subject, and the research, teaching, and funding of the subject.

Members are reminded that the journal *Imago Mundi* is offered to ISHMap members at **special subscription rates**, including an affordable student rate, thanks to the generous support of Imago Mundi Ltd. Members of the Society can use the website's 'Members only' section and they are encouraged to **publish information** relating to the history of the map **directly** on the website's public front page *MAPISH* and use the **free and open** Listserv to promote discussion about any topic in the field of map history. You do not need to be a member of the Society to subscribe and comment to the Listserv. **Subscribe to "ISHMap-List"** on our website: <http://ishm.elte.hu>.

Our next **Annual General Meeting** will be held in **Belo Horizonte on Saturday 8 July 2017**. All are welcome to attend.
